## Notes

### Culture

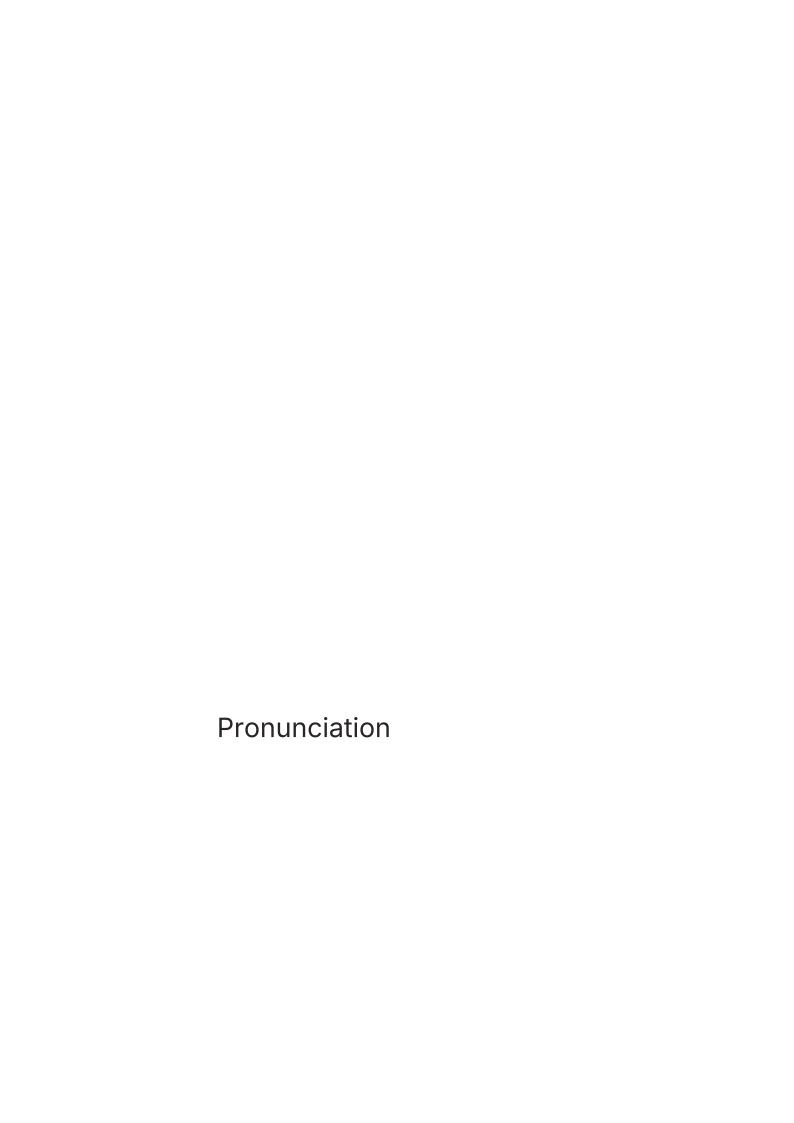

#### **Architecture**

The picture shows the
Transamerica Pyramid in the
Financial District of San
Francisco, California. It is the
second tallest skyscraper in San
Francisco. More and more
modern skyscrapers are being
built next to historic buildings
around the world, showing
sharp contrasts between old
and new architecture.

Slow Movement

The main philosophy of the Slow Movement is to do

everything at the right speed in order to enjoy everything you do. It started in 1986 in Italy when Carlo Petrini wanted to protest against the opening of a McDonald's restaurant in one of the most famous attractions in Rome, which led to the creation of the Slow Food organisation. The Slow Movement covers many other areas now: Slow Cities, Slow Travel, Slow Living and Slow Design. The Slow Movement is not a single organisation, but is run by people all over the world.
